PROJECTS

E-Commerce Website (College Project)

Designed and developed the front-end of a responsive e-commerce website using React.js. Focused on creating an interactive user interface with product listings, category filters, and cart page design. Implemented responsive layouts using HTML, CSS, and React components to ensure seamless performance across all devices.

Technologies Used: React.js, HTML, CSS, JavaScript

News-wave Website (College Project)

Developed a modern, responsive news website using React.js. Designed dynamic news category sections, article pages, and a clean, user-friendly layout. Focused on delivering a fast and responsive UI with reusable React components. Ensured optimized performance and mobile-friendly design for better user experience.

Technologies Used: React.js, HTML, CSS, JavaScript
